

A topographic map showing a road intersection. A road runs horizontally across the middle, with a green rectangle highlighting a specific point labeled 'G.D.10'. The road curves to the right below this point. Contour lines are shown with elevations of 14.00, 14.50, and 15.00. A dashed line with cross-ticks runs parallel to the road. The map also shows some building footprints and a river or stream on the left.
